

COOL me UP

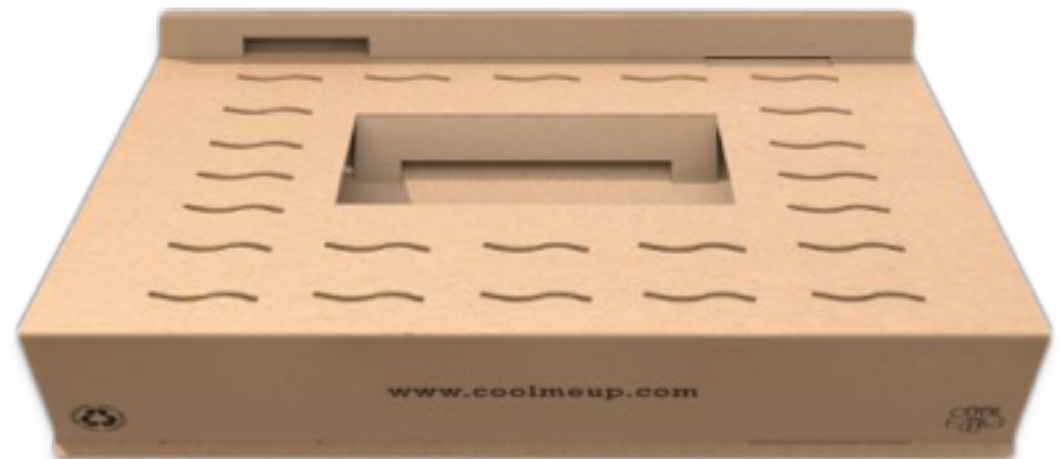

What is Cool Me Up?

Cool Me Up is an environmentally friendly cooling support for your laptop.

Thanks to its Eco-friendly design and folding structure Cool me Up allows your laptop to keep cool, whilst taking care of your back too.

As it bends it lifts your device, permitting you to work in a very comfortable position :)

Be Cool!!

How is Cool Me Up?

ECO-FRIENDLY

Built entirely with 100% recyclable materials.

EFFICIENCY & PROTECTION

It helps your laptop to be more efficient by helping to avoid overheating and thus saving energy.

PORTABLE

Cool me Up is foldable, lite-weight and compact, making it very easy to carry around with your laptop anywhere.

ERGONOMIC

Its stable and resistant structure lifts and angles your keyboard, and in so doing takes care of your back.

USER CUSTOMIZABLE

Cool Me Up is completely user-brandable, you can add your own brand-name, company logo, design, colours, and publicity.

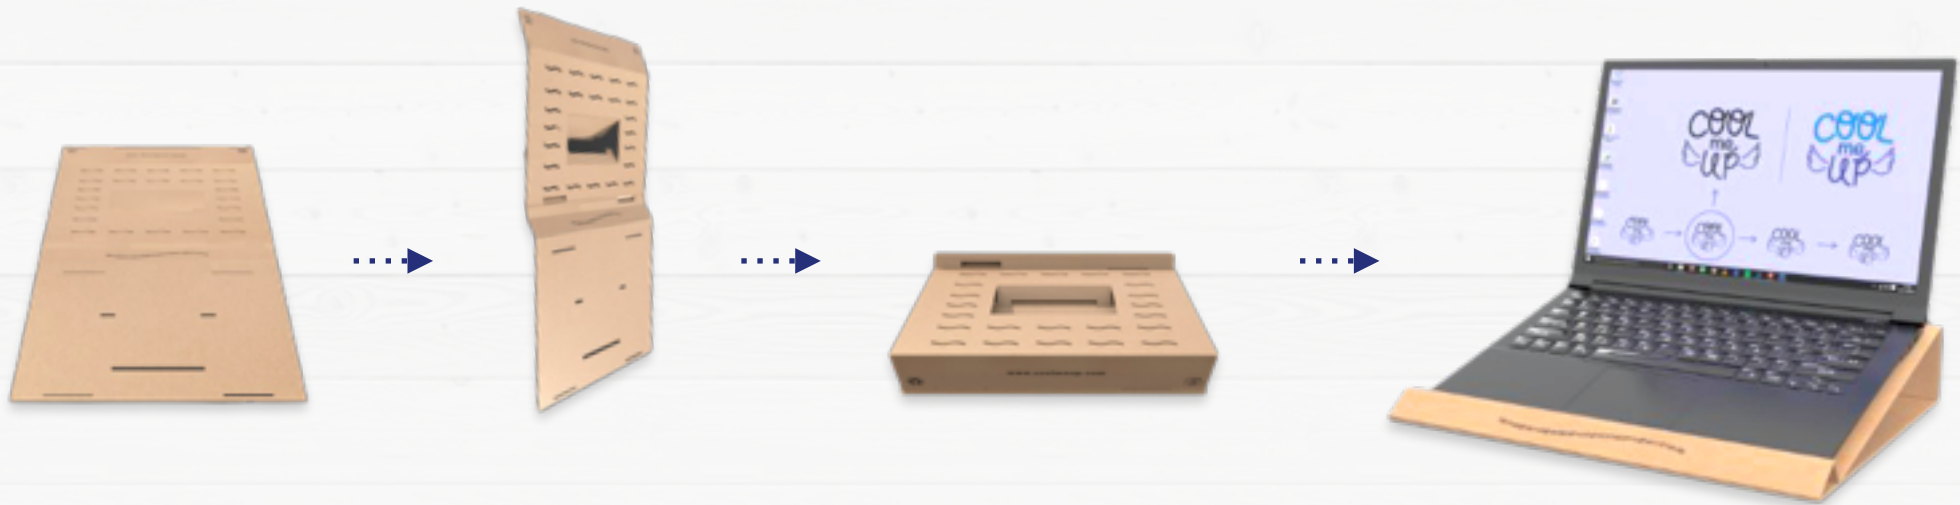

EASILY TRANSPORTABLE

Thanks to its thin compact nature bulk transport is easy, as it can easily be stacked-up in large quantities.

Installation

You can assemble **Cool Me Up** yourself in less than a minute. You can easily fold it and unfold it many times, and take it with your laptop anywhere. It's very thin and compact, and its surface area is similar to a laptop.

Be Cool!!

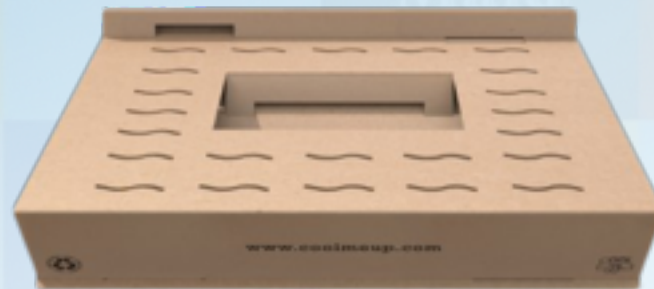

Take care of your back and computer wherever you are ;)

Easily promote your brand

Because Cool me Up is easy to use anywhere, because of its innovation and coolness, because it is easily customizable, because it's so Eco-friendly, it is the ideal item to help promote your brand, being perfect for advertising campaigns, promotions, merchandising, congresses, exhibitions, seminars, trainings etc.

Innovative, cool, compact, healthy, Eco-friendly, economic. Everyone will want to use Cool me Up. Everyone will want one.
